@kumarsam07

SHAMBHU KUMAR QSpiders | JSpiders | PySpiders, NOIDA

**Q1**

**WAP to print all the numbers from 1 to 10.**

## While Loop based Programming

**Q2**

**WAP to print all the numbers from 10 to 1.**

## While Loop based Programming

**Q3**

**WAP to print square of each numbers from 1 to 100.**

## While Loop based Programming

**Q4**

**WAP to print all the numbers from 1 to 100 which are perfect square.**

## While Loop based Programming

**Q5**

**WAP to print and count all the numbers from 1 to 100 which are perfect square.**

## While Loop based Programming

Q6

### Bulb Switcher

## While Loop based Programming

Q7

WAP to print cube of each numbers from 1 to 100.

## While Loop based Programming

Q8

WAP to print all the numbers from 1 to 100 which are perfect cube.

## While Loop based Programming

**Q9**

**WAP to print and count all the numbers from 1 to 100 which are perfect cube.**

## While Loop based Programming

**Q10**

**WAP to print all the even numbers from 1 to 100.**

## While Loop based Programming

**Q11**

**WAP to print all the odd numbers from 1 to 100.**

## While Loop based Programming

### Q12

**WAP to print all the numbers from 1 to 100 which are divisible by 7.**

## While Loop based Programming

### Q13

**WAP to print and count all the numbers from 1 to 100 which are divisible by 7.**

## While Loop based Programming

### Q14

**WAP to print and count all the numbers from 1 to 100 which are divisible by 7 or ends with 7.**

## While Loop based Programming

### Q15

**WAP to print and count all the numbers from 1 to 1000 which are divisible by 7 and also ends with 7.**

## While Loop based Programming

**Q16**

**WAP to print all the factors of a number.**

**i/p: 28**

**o/p: 1      2      4      7      14      28**

**Important  
Don't leave it...!!**

## While Loop based Programming

**Q17**

**WAP to count the factors of a number.**

**i/p: 28**

**o/p: Total Factors are: 6**

**Important  
Don't leave it...!!**

## While Loop based Programming

**Q18**

**WAP to print and count all the factors of a number.**

**i/p: 28**

**o/p: 1      2      4      7      14      28**

**Total Factors are: 6**

**Important  
Don't leave it...!!**

## While Loop based Programming

**Q19**

**WAP to print a number is a prime number or not.**

**Important  
Don't leave it...!!**

## While Loop based Programming

Q20

Three Divisors:

Three Divisors - LeetCode

## While Loop based Programming

Q21

K-th Factor of n:

<https://leetcode.com/problems/the-kth-factor-of-n/>

## While Loop based Programming

Q22

Common Factor:

<https://leetcode.com/problems/number-of-common-factors/description/>
